SUMMER STEM CAMP

W.F. WEST HS, CHEHALIS WASHINGTON

The University of Washington is partnering with the Chehalis Foundation to provide a four-day summer camp focusing on engineering and medical science.

AUG 4-7 | 9 AM-3 PM

**Open to ALL high school students
entering grades 9-12.**

Join us this summer and learn from experts in the fields of both engineering and medicine as they share some of the most cutting-edge technologies.

**\$25/STUDENT
REGISTER HERE**

Scholarships are available

FOUNDATION

UW MEDICINE INSTITUTE FOR STEM CELL RESEARCH

Through hands-on activities led by UW scientists, you will dive into the mysteries of DNA, experiment with technology used today in research labs, discover how stem cells can be turned into other cell types, explore the possibilities of gene-editing, learn how biologists and engineers work together to solve medical problems, and get an up-close look at human heart, brain, and lung tissue.

UW COLLEGE OF ENGINEERING

Guided by mentors from UW Engineering, learn to harness fundamental engineering principles like buoyancy, force distribution, and material strength to create a boat that can float, carry weight, and race across water. Then, put your skills to the test in a hands-on team competition for prizes!
